

ASSESSMENT OF REALTY BY COUNTIES IS SHOWN

Property Not Yet Valued and Subject to Correction Pliminated In Report Given Out By Chief Tax Statistician.

NASHVILLE, Tenn., Feb. 2.—The following is the 1915 assessment of realty of each county in the state and the total cash value of the real estate of each county in the state, as reflected in the report taken by the chief tax statistician, omitting certain counties which are subject to correction of valuation in certain counties where errors have been discovered.

County	Assessment	Valuation
Anderson	1,812,280	4,882,680
Bedford	1,421,500	4,421,500
Benton	1,421,500	4,421,500

Van Buren	1,421,500	4,421,500
Warren	1,421,500	4,421,500
Washington	1,421,500	4,421,500
Wayne	1,421,500	4,421,500
Weakley	1,421,500	4,421,500
White	1,421,500	4,421,500
Williamson	1,421,500	4,421,500
Wilson	1,421,500	4,421,500
Total	\$308,910,300	\$1,668,735,700

Mr. A. V. Louthan in his report, added: "I desire to call attention to a few facts which should be taken into consideration in connection with the above totals. The above totals show the real estate of Tennessee to have been assessed in 1915 at \$308,910,300. The actual cash value of the real estate as shown above, based on proof taken by the chief tax statistician, is \$1,668,735,700. There is likely something over \$100,000,000 in real estate values yet to be added to this total. This consists of very valuable coal lands in a number of East Tennessee counties which have not been included in the above valuations, and which are included in the above assessments. The valuation of such property is a very intricate problem and we are now trying to work out a plan, with the assistance of the chief tax inspector of the state and his corps of assistants, that will enable us to adopt a standard of values for these coal lands, which will be uniform as far as it is humanly possible to make it so and which will be fair and just to the county, to the state, and to the property holder. This class of property when finally valued will very materially increase the valuations as shown above in the counties where this property is located. There is also some unvalued property in smaller amounts scattered throughout the various counties. These valuations are yet to be added to the above total. In addition to this, there are also some large holdings belonging to several gigantic corporations, the appraisal of which is not yet completed. The magnitude of these holdings and the complicated form of the property of some of the industrial plants makes it necessary to have expert appraisers for this class of property.

"I want to especially direct attention to the valuations in Polk county, which, as listed above, is less than the 1915 Assessment. This is due to the fact that the property of the Tennessee Copper Company and the Tennessee Power Company is still being valued and these properties are not included in the above total. The property belonging to these companies will very materially increase the valuations in Polk county.

"The valuation of the gigantic plant of the Aluminum Company of America, at Maryville, is not included in the above total. The valuation of this property is not yet completed.

"We have already discovered some eight or ten counties which are undervalued, but we have a line on the valuation and the counties are being assessed at actual cash value in several of these counties there will be a considerable increase even when the proof taken by the chief tax statistician is included in the valuation of the real estate of Davidson county, the first from Union street to Cedar street and from Ninth avenue to the Capitol boulevard and from the Capitol boulevard to Sixth avenue is not included in the property which will be taken over to the state and county for the erection of a general building. However, the reason for not including the valuation on it is that the Capitol Commission has appointed a local committee of real estate men to value this property for the purpose of purchasing it and do not desire to embarrass or work at cross purposes with this committee of appraisers. I intend to certify the valuations fixed by this committee to the tax assessor. In considering the totals of Davidson county it should also be taken into consideration that the title to the gigantic old Hickory powder plant is vested in the federal government and is not of course subject to taxation.

"The above described unvalued property will result in the total value of real estate in Tennessee being valued at from \$1,774,900,000 to \$1,890,000,000 which will be something like an increase of \$100,000,000 or more above the valuation reflected above. In figuring on the state rate under the sliding scale, we must add to this all railroad and public utility property throughout Tennessee, which is being assessed this year at actual cash value and we should also add the estimated assessment on personal property.

"Reports already coming in from county tax assessors indicate a very high increase of personal property. The owners of personal property, realizing that the tax rate will be reduced under this new assessment to a point that they will not be considered on the income of such property are bringing

General Will Pass Through Streets En Route to Park Field Feb. 15.

Persons who assemble along the sidewalks of Main street and other avenues in Memphis at 2 o'clock Sunday, when the general will pass through the city, will have a chance to catch a glimpse of the man who led the American expeditionary forces, a familiar figure via movies and newspapers to every American who is possessed of eyesight.

Gen. John J. Pershing will pass through the Memphis streets about this time Sunday, Feb. 15, en route from the China hotel to Park field, where he will inspect the aviation holdings of the war department.

Does your footwear look as neat and attractive as you would like? There is no reason to continue to wear shoes that are shabby, when such low prices are obtainable as Zellner's offers in this Clearance Sale.

One of the main reasons for shoes to look unsightly before their time is improper fitting—the various dimensions of the shoes not coming in the corresponding part of the foot. The wearer often does not know this, and it takes an expert shoe fitter to be sure of proper fitting qualities. Zellner's marks all shoes in plain sizes and widths. The opportunity to misrepresent, therefore, does not exist.

Zellner's also holds salesmen responsible for misfits, so that the incentive to urge the purchase of a shoe that is not a perfect fit has been eliminated.

During the Clearance the usual care is given to fitting correctly as at all other times; in fact, all service and courtesies given by Zellner's are unchanged during Clearance.

Remember Shoes for Men at \$12.50 to \$14. Other shoes for men at \$10, \$7 and \$3.50. For Women at \$10, \$9, \$8, \$7, \$6, \$5 and \$4. For Children at correspondingly low prices. Hosiery, too, has been included in the Clearance.

Health, Happiness and Genlax Go Hand in Hand

You will agree that Health and Happiness go hand in hand. If your body is sound and well the chances are ten to one that you are happy. Did you ever notice a rumping child with his rosy cheeks? This child, the picture of health, would not be so full of life if, like some of the older people, he or she suffered from indigestion, dyspepsia or constipation.

On the other hand, look at the grouchy man or the irritable woman. Investigate and you will find that they are sufferers from dyspepsia, constipation, indigestion or some similar ailment. Correct the troubles and you will see a marvelous change come over these people. The grouchy man is smiling and agreeable, and the nervous woman calm and happy. If these people could see themselves as others see them, they would certainly seek the proper remedy.

The best remedy is GENLAX. This wonderful discovery is proving a blessing to thousands of suffering people. Never fail to recommend this fine old medicine to those suffering from indigestion, dyspepsia, heartburn, sick headache, nervousness and run-down conditions, or to those who feel the flu coming on. Never fail to trust GENLAX if you yourself suffer from any of the above ailments. Safeguard your health, because health is your greatest asset.

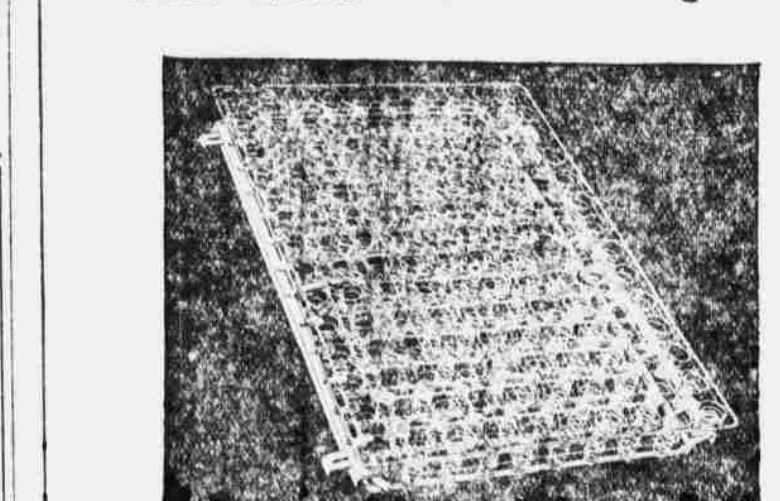

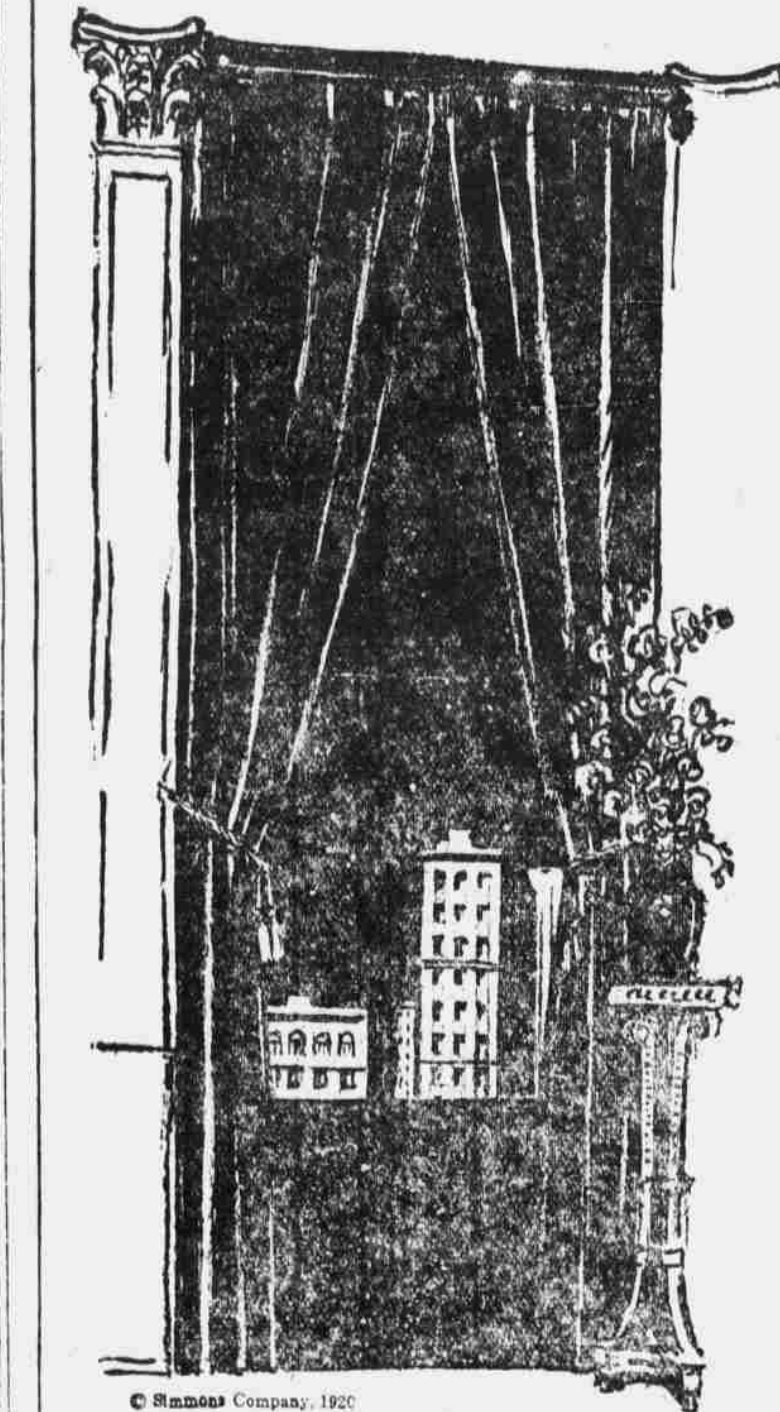

Take our advice and buy a bottle from your nearest druggist. The following Memphis jobbers carry Genlax in large quantities:

Van Vleet Mansfield Drug Co.
Hessig Ellis Drug Co. and Ellis Jones Drug Co.

The following Memphis druggists are Genlax agents and also carry in stock Benson's Genlax Liniment and Benson's Indo Salve:

Washburn Lyle Drug Co., Main and Beale
Battier's Pharmacy, Hamner-Ballard
Moseley-Robinson Drug Co.

GENLAX KILLS THE FLU

The "CLERMONT"
Simmons Coil Spring of Highest Grade—No. 2454

Built of 140 highly tempered wind-up springs—of great resiliency. Each spring connected with each adjacent spring by helical "Double-Check" construction in center of bed, where the greatest weight comes. Frame of heavy angle steel—equipped with patent adjustable hangers, adapting the "Clermont" Spring to various types of bed.

Is Plenty of Sleep a Waste of Time

WORK is pressing. Every man has about twice as much on hand as he ought to be asked to do.

For forty years Simmons Company has been making Beds and Springs to promote sleep.

Few men sleep long enough—or soundly enough. Even if there is nothing else to keep them awake, the average metal or wooden bed creaks just enough to prevent the nerves from complete relaxation.

It is the maker of really noiseless Metal Beds—beds that stand sturdy and firm—not a shake, creak or rattle anywhere.

No one can sleep deeply unless he is completely relaxed.

If you know only wooden beds or ordinary metal beds and springs—ask the leading dealer in your section about Simmons Steel Beds, Brass Beds, Springs, Day Beds and Children's Cribs.

It is wonderful how the right kind of Bed spring invites perfect relaxation and deep, sound sleep.

They are built for sleep—yet they cost little if any more than the casual merchandise of the ordinary store.

The good spring is taut and flat, yet resilient. It supports the body at ease in any sleeping position—conforms to the contours—never weakens, humps or sags.

And when you are selecting your Simmons Beds with an eye to their appearance in the room, you will see that Simmons has for the first time established beautiful and authoritative design in Metal Beds.

Look at the Springs built by Simmons Company—Springs built for sleep!
